

Memory Light & Mini Tap

A glowing memorial keepsake and a tap-to-sign-in guest tool, built around the online obituary your funeral home already has live. No hosting, no app, no added work for your staff.

A Margin-Ready Add-On

Sits next to what you already sell — urns, prayer cards, jewelry. Families want something to hold; you have a new line to offer.

Zero Added Work

You place an order, we deliver a finished, fully programmed piece. Nothing new for your staff to host, learn, or maintain.

Modernizes Sign-In

Mini Tap removes the shared pen and illegible guest book — without asking you to change how you run a service.

How Ordering Works

Memory Light — Send us the funeral program cover (or a photo + name/text) and a link to the online obituary. We build the panel, program the NFC tag, and deliver ready to place — 48-hour turnaround.

Mini Tap — Order in bulk and keep it on hand. Ships with a free how-to card so your staff can tap-write a new link before each service in under a minute.
